

Part No.:D5019701

Part No. (US):D5019701

Application :

These tubes can be used to identify air flow patterns and leaks from pipe lines.

Detector Tube Sampling Pump :

Rubber aspirator bulb.

Chemical Reaction and Color Change :

Fuming Sulphuric acid reacts with moisture from the ambient air producing white smoke.

Color change:Not Applicable

Important Note :

Smoke tubes extricate sulphuric acid mist. Avoid inhalation of the smoke clouds. When destroying used tubes, note that the filling material contains sulphuric acid.
