# **Uniphos Dissolved Substance Tube Data Sheet**

Direct Reading Length of Stain Type

# Chloride Ion

Cl

DCL-5M

## **Specification:**

Measurement Range	10 – 2000 ppm
Sampling Time	2 minutes
Color Change	Brown $\rightarrow$ White
Sample water pH Range	4- 12
Storage condition	Below 10°C (50°F)
Calibration method	Potassium chloride standard solution at 20°C
Active Reagent(s)	Silver chromate

### **Possible Interferences:**

Compound	Conc. (ppm)	Interference	Colour change
Bromide ion	10	Positive	Brown $\rightarrow$ White
lodide ion	50	Positive	Brown $\rightarrow$ White
Sulphate ion	1000	Positive	Brown $\rightarrow$ White
Iron ion	200	Positive	Brown → White

### **Correction for Environmental Parameters:**

	Temperature	Not necessary between 0 - 40°C	(32 - 104°F).
