

**Specification :**

|                                      | Extended                             | Standard   | Extended    |
|--------------------------------------|--------------------------------------|------------|-------------|
| Measurement Range (SO <sub>2</sub> ) | 0.5 - 1 ppm                          | 1 - 20 ppm | 20 - 40 ppm |
| No. of Pump Strokes                  | 2 (200 ml)                           | 1 (100 ml) | 0.5 (50 ml) |
| Volume Correction Factor (VCF)*      | 0.5                                  | 1.0        | 2.0         |
| Sampling Time                        | 2.0 minutes per pump stroke (100 ml) |            |             |
| Color Change                         | Yellow → Pink                        |            |             |
| Detection Limit                      | 0.2 ppm (2 pump strokes)             |            |             |
| Shelf Life                           | 1 year                               |            |             |
| Relative standard deviation          | ± 10 - 15 %                          |            |             |

\* Multiply the observed reading by the correction factor (VCF) to obtain the true concentration.

**Reaction Principle :****Possible Interferences :**

| Compound          | Concentration (ppm) | Interference | Color Change / Comments |
|-------------------|---------------------|--------------|-------------------------|
| Other mercaptans  |                     | +            | Pink                    |
| Phosphine         |                     | +            | Pink                    |
| Arsine            |                     | +            | Pink                    |
| Hydrogen cyanide  |                     | +            | Pink                    |
| Hydrogen sulphide | ≤20                 | No           | No Effect               |
| Carbon dioxide    | ≤10%                | No           | No effect               |
| Ammonia           | ≤100                | No           | No effect               |
| Sulfur dioxide    | ≤30                 | No           | No effect               |

**Cross Sensitivity :**

| Compound          | No. of strokes | Gas Correction Factor (GCF)* | Measuring range (ppm) | TLV (ppm) | Colour change |
|-------------------|----------------|------------------------------|-----------------------|-----------|---------------|
| Methyl Mercaptan  | 1              | 1                            | 1 - 20 ppm            | 0.5       | Pink          |
| t-Butyl Mercaptan | 1              | 1                            | 1 - 20 ppm            | 0.5       | Pink          |

\* Multiply the observed reading by the correction factor (GCF) to obtain the true concentration

**Correction For Environmental Parameters :**

|                   |                                              |
|-------------------|----------------------------------------------|
| Temperature       | Not necessary between 0 - 40°C (32 - 104°F). |
| Relative humidity | Not necessary between 10 - 90 %.             |

**Calibration Of The Tube :**

Static gas dilution method.

TLV (TWA):0.5 ppm

TLV (STEL):----

Flammable Range: 3-18 %
